Works **very well under pressure** and **in fast paced environments** with strict deadlines.
Extremely punctual & dependable. **When things get rough I'm the one you can depend on to still show up and get the job done.**

Front End Web Developer

- Front End Web developer able to build a client side Web presence from the ground up — from concept, design, navigation, layout and programming.
- Skilled at writing well-designed, testable and efficient code using current best practices in Web development.
- Fast learner, hard worker and team player who is proficient in an array of scripting languages and multimedia Web tools.

Technical Toolbox

Web Tools: **HTML5, CSS3, SASS, Javascript, jQuery, Bootstrap, GitHub, Google Analytics, Adobe Photoshop, and creating responsive web sites/apps/services/emails.**

Currently taking on new clients and building my portfolio, while sharpening my skills, and *learning* additional frameworks like **React** and Angular. Also, in the early *learning* stages of back end development with PHP, My SQL, Node, and advanced DOM manipulation.
